Accomplish all your business goals with mobile apps from Nexbex, build for high user engagement and serve as critical business utility applications in today's mobile-first world.

Digital Transformation

Embrace digital transformation with the leading IT consultancy firm by your side. We can help your business explore modern technology, replace outdated systems and be future ready when it comes to your business endeavors.

Enterprise Software Development

Enterprise-grade software from Nexbex IT consultancy firm, built to enhance business control, productivity and decision-making. From ERP to inventory management to internal communication platforms , we have business utility applications that can keep your business ahead of the curve.

Quality Assurance & Testing

With several years of industry knowledge and experience in quality assurance and testing, our IT team at Nexbex can ensure that your digital products meet the highest standards

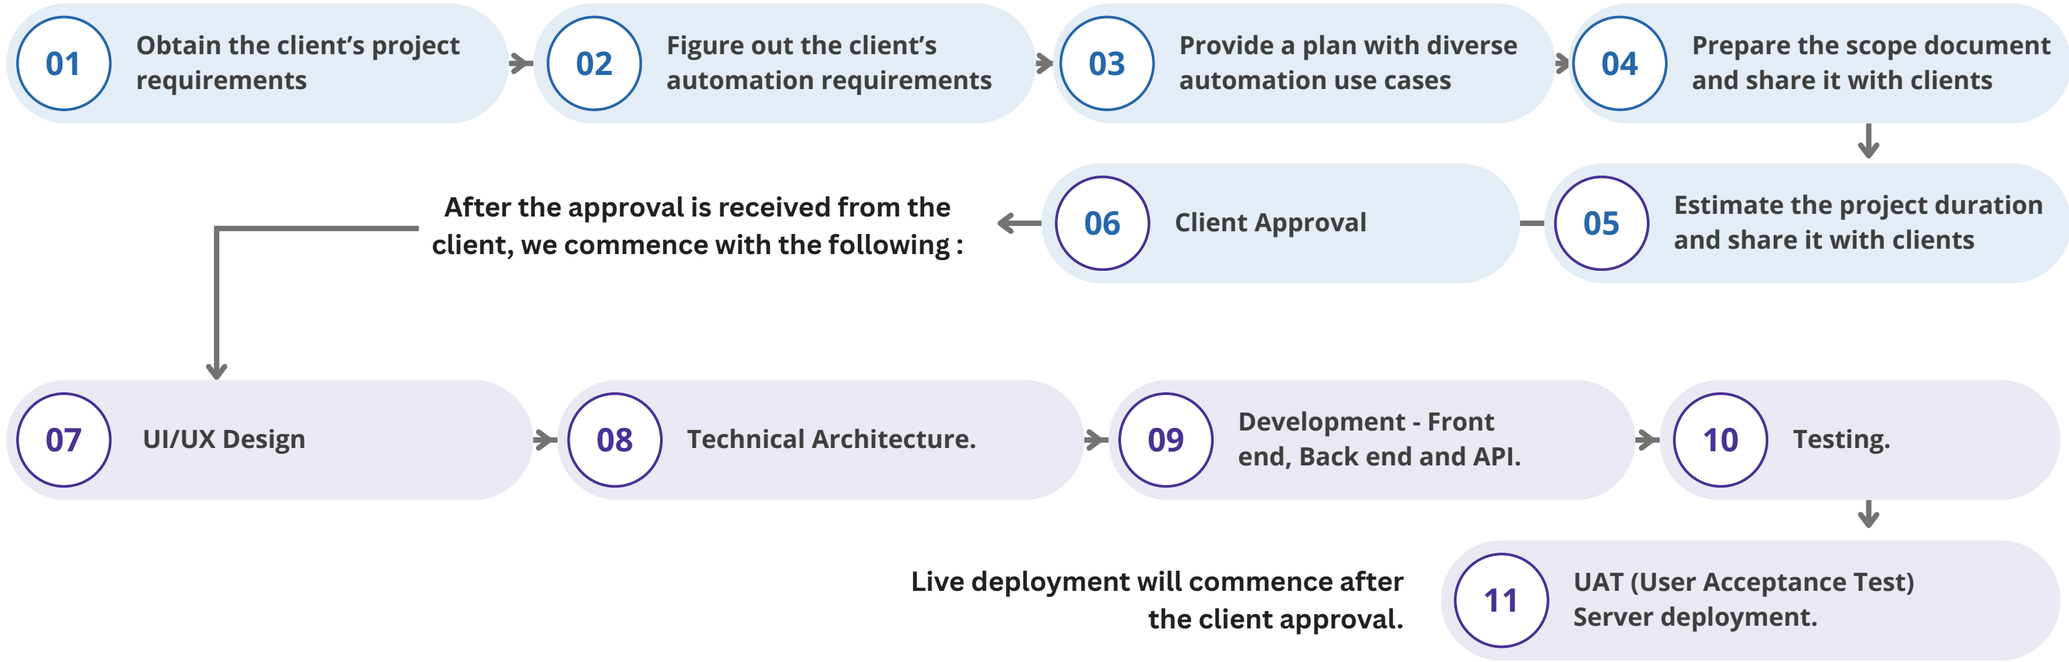

Digital Marketing & Branding

Reach your target audience with strategically crafted digital marketing campaigns from Nexbex IT solutions. Our digital marketing and branding team can ensure that your business's online presence is strong and growing.

HOW WE WORK

AUTOMATION DEVELOPMENT WORK FLOW

01. PROJECT DEVELOPMENT WORK FLOW

02. SUPPORT TEAM WORK FLOW

We have an energetic support team to handle the queries and requests raised. We pay close attention to the automation needs even after the automation is implemented and handed over to the customers.

01 **Our support team will track your requirements with the ticketing software.**

02 **With ticketing software, we will keep track of client requests at any time.**

03 **Once the client has filled in the issue, we use the Service Level Agreement (SLA) regulation in the ticketing software. There are three SLA process severity levels.**

Severity Level 1	Resolution within 4 hours
Severity Level 2	Resolution within 24 hours
Severity Level 3	Resolution within 48 hours

Hire Dedicated Developers

We have an experienced team of automation developers who can work on your unique project and create the best solution. No matter the size of your business, we have dedicated developers who are expertise in cutting-edge technologies and help you to deliver tailored automation solutions.
